

Mercer University
College of Pharmacy and Health Sciences
Doctor of Pharmacy Curriculum Outcomes

- I. **PATIENT CARE** Provide patient care in cooperation with patients, prescribers, and other members of an interprofessional health care team based upon sound therapeutic principles and evidence-based data, taking into account relevant legal, ethical, social, economic, and professional issues, emerging technologies, and evolving biomedical, sociobehavioral, and clinical sciences that may impact therapeutic outcomes.
 - A. Provide patient-centered care.
 - B. Provide population-based care.

- II. **SYSTEMS MANAGEMENT** Manage and use resources of the health care system, in cooperation with patients, prescribers, other health care providers, and administrative and supportive personnel, to promote health; to provide, assess, and coordinate safe, accurate, and time-sensitive medication distribution; and to improve therapeutic outcomes of medication use.
 - A. Manage human, physical, medical, informational, and technological resources.
 - B. Manage medication use systems.

- III. **PUBLIC HEALTH** Promote health improvement, wellness, and disease prevention in cooperation with patients, communities, at-risk populations, and other members of an interprofessional team of health care providers.
 - A. Assure the availability of effective, quality health and disease prevention services.
 - B. Develop public health policy.
